

EVRENOL ARCHITECTS

Company Profile

Evrenol Architects is a leading architecture, interior design and urban planning office, based in Istanbul. It values the cultural heritage and incorporates these cultural values into its designs. Evrenol Architects' large scale urban projects respect the environment, both organic and human-built. Other disciplines like sociology, psychology, arts, science and technology are also of main concern. The team consists of a group of very experienced yet driven individuals, devoted to architecture and contemporary urban design. They strive to build human centric, public serving living spaces for all of us.
